How Information and Communication Technologies are used to assist learning

Students live in a technological world where ICTs are integral to everyday situations. Students independently and collaboratively work in online and stand-alone environments across a range of learning contexts. Students make use of a range of tools including computers, ipads, IWBs, video and digital cameras, ipods and a range of functions and applications to inquire, develop new understandings, transform information and construct new knowledge for a specific purpose or context. Students are educated to develop and apply ethical, safe and responsible practices when working with ICTs.

Social climate inclusive of pastoral care and our response to bullying

As a Catholic Christian community we strive to be a learning community that embraces the principles of Respect, Responsibility, Forgiveness, Reconciliation and Equity. St Ita's School provides programs within the teaching and learning curricula which support the spiritual, social and emotional development of each student. These programs include Senior Student Leadership; Peer Mediation; Program Achieve: You Can Do It (Early Years); Circle Time; Class Meditation; Buddy Classes; Pastoral Care, Environment, Media & Social Justice Student Ministries; Play is the Way (“The Games Factory”); Rock and Water; Restorative Practices; Counselling Service for students. 'No Bullying' posters are prominently displayed with strategies for reporting. Our behaviour policy states: 'We will not tolerate bullying. We can do something about it. Remember that every reported incident will be investigated and it is right for you to tell someone if you, or your friends, are feeling bullied or unsafe.'
Parent, student and teacher satisfaction with the school

Feedback from parents, students and teachers is a valued element of our school's ongoing review process. Opportunities for feedback are provided through the School Board, P & F Association, Student Council and staff meetings. The annual internal school review process focuses on gathering information around specific components within the four priorities of the BCE Strategic Renewal Framework 2012-2016. The following statements are taken from Internal School Review surveys:
"We are absolutely delighted with St Ita's. We find it to be a very compassionate and supportive school where children are encouraged through instruction and example to respect and care for one another. This is such a wonderful opportunity for children to develop strong and positive social skills and understand the need to participate positively in their community. We have also found that St Ita's and the staff provide an interesting, stimulating and varied curriculum. We were very impressed with the recent composition of the school song - what a great opportunity for the children to be involved in the creation of music."

Parent involvement in their child's education

The partnership between home and school is valued and nurtured through parent representation on the School Board, P&F Association, classroom volunteer program, parents as guest speakers at staff meetings, assemblies and in classrooms, class/school liturgies, sports carnivals, social events e.g. school fete, Trivia Night, Movie Night, Disco, Mothers’ Day & Fathers’ Day events, school concerts, art shows and displays of learning. Communication to parents is conducted via parent/teacher interviews, class newsletters & blogs, school newsletter & eNews, parent/class representatives, school website and the annual cyclical review process.
